About this yacht

Why this yacht stands out.

Iconic Design: Instantly recognizable, minimalist, and undeniably sleek. It's the definition of modern luxury.

What makes this VanDutch the ultimate cool ride?

The Vibe is Everything: We obsessed over the atmosphere, and that starts with the music.

Concert on the Water: A massive 3kW sound system that delivers powerful, crystal-clear audio. It's not just a feature; it's the heartbeat of your day.

As a yacht lover, you already know the VanDutch 40 is a head-turner. In Dubai, where style is everything, the VanDutch isn't just a boat—it's a statement. A 2024 refit model is the ultimate expression of that, combining its iconic, minimalist design with all the modern upgrades for a truly luxurious and unforgettable experience.

The VanDutch 40: Dubai's Most Stylish Day Yacht

The VanDutch 40 is renowned for its sleek, "walk-around" deck and a silhouette that looks more like a high-end supercar than a yacht. The flat, uncluttered deck, with its flush-mounted hardware, is not just beautiful—it's practical for moving around the boat, whether you're heading to the swim platform or lounging on the massive sun pad. A 2024 refit means this yacht has been brought up to the latest standards, with modern finishes and state-of-the-art technology.

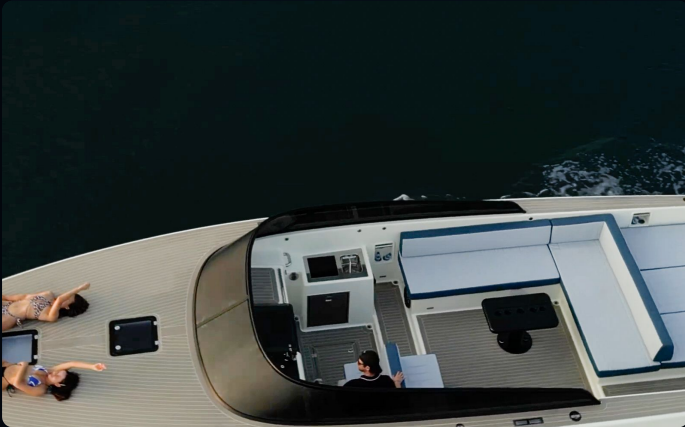

The Vibe: This yacht is all about daytime cruising and partying. It's not a long-range cruiser; it's a floating lounge. It's the perfect platform for cruising past the Burj Al Arab, dropping anchor at a sandbar, and having a full-on party with up to 10 of your friends. It's for those who want to be seen and for those who appreciate design purity.

The Entertainment Hub: This is where the 2024 refit really shines. The 3kW music system is not just an audio system; it's a concert on the water. With that kind of power, you're not just playing music, you're feeling it. The sound is clear, punchy, and loud enough to get the party started without any distortion. The integrated Wi-Fi and

AirPlay connectivity mean anyone on board can instantly become the DJ, streaming their favorite playlists directly from their phone. No more fumbling with cables or adapters—just pure, seamless sound.
